DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim1-8, 10, 11, 13-15, 17, 18, 20, 21, 23-25, and 28 are rejected under 35 U.S.C. 102(b) as being anticipated by United States Patent 6,039,764 Pottenger et al.

In reference to claims 1-5, 8, 10, 11, 13-15, 17, 18, 20, 21, 23-25, and 28

Pottenger discloses the invention substantially as claimed being modular knee joint system comprising first and second femoral components (214) and (216), a tibial component (230), a mobile bearing surface (238) and (240), a fixed bearing member (242), wherein both the first and second femoral components have an equal overall anterior to posterior dimension, substantially equal interior anterior to posterior dimensions, substantially equal interior mating shapes, and different overall medial to lateral dimensions shown in figures 33 and 34.

In reference to claims 6 and 7, since the applicant fails to specifically define the meaning of the a posterior stabilized femoral component and the fully constrained femoral component, they are being viewed in a very broad manner. Therefore the femoral components disclosed by Pottenger are being considered to be a first cruciate component, a posterior stabilized femoral component and the fully constrained femoral

Art Unit: 3738

component. The applicant is advised to refer to section 211.01 of the MPEP for further clarification of the manner in which the claim is being interpreted.

Response to Arguments

Applicant's arguments with respect to claims 1-8, 10, 11, 13-15, 17, 18, 20, 21, 23-25, and 28 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher D. Prone whose telephone number is (571) 272-6085. The examiner can normally be reached on Monday Through Fri 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Corrine McDermott can be reached on (571) 272-4754. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
